Dear Friends,

The Annual International Conference of the Society of Free Radical Research-India (SFRR-India) is held every year to enhance knowledge through sharing experiences of innovations and novel ideas in free radical research. The past SFRR-India meetings have provided platforms for the researchers, academicians and clinicians to stimulating and interactive brainstorming for the holistic knowledge on the current advances and ongoing projects free radical biology, chemistry and pharmacology to further translational research. The other major endeavors of SFRR-India has been to inform the common people about the harmful/ beneficial impact of free radicals in human health; devise strategies to mitigate/harness the impact; and inform the policy makers for better life quality. To this end, SFRR-India is promoting our young and future scientists to actively participate in its “Swasth Bharat” program, in line with the philosophy of the honorable Prime Minister, India. It is heartening to note the national and international peers and participants of the 13th SFRR-India conference, held in 2014 particularly appreciated the participation of even under-graduate budding scientists, since they felt that such an encouragement is essential and typical of India. We are honored by these feedbacks.

The next conference of our Society has been planned as an academic feast at the College of Medicine & JNM Hospital, WBUHS, Kalyani, Kolkata, reputed as a premier institute of India for its significant contributions in building the next generation of scientists/researchers and translational research. While maintaining the major objectives of our Society, the conference aims to provide advanced deliberations by eminent scientists from India and abroad to foster industrial and medical free radical research for societal benefits. Considering the pleiotropic physiological effects of nitric oxide, this year’s conference is also planned to specifically deal with nitric oxide biology.

Such an endeavor can only succeed by the financial support of the Indian industries, coupled with the active participation of the professionals. The organizing committee warmly welcomes you to contribute to the conference to achieve our objectives. Looking forward to meet you all in January, 2016. Please plan your trip well in advance to be part of us and enjoy the scientific deliberations as well your stay in Kalyani, West Bengal, India.

*Prof. Subir K. Das*

Convener,

14th SFRR-India Annual Meeting 2016

## **CALL FOR ABSTRACTS**

**Deadline for submission of abstracts: August 15, 2015**

Participants can submit an **electronic copy** of Abstract by **e-mail** to the Secretariat together with the registration form and registration fees. Abstracts will be reviewed by the scientific committee and assigned to appropriate sessions. Only a very limited number of abstracts will be scheduled for oral presentation.

### **Guidelines for Submission:**

1. Error free Abstracts not exceeding 250 words typed in “Times New Roman” and font size “12” should be as brief and informative as possible with chronological headings: **Title, Authors** and addresses (Italics the presenting author), Email ID to whom acceptance is to be sent, **Objectives, Methodology, Results** and **Conclusions** of study.
2. Standard abbreviations only to be used.
3. Inclusion in the scientific program and book of abstracts will be considered only on payment of registration fee.
4. Letter of acceptance will be sent by **November 1, 2015** by **email**.

## **LIST OF TOPICS TO BE COVERED**

The XIV Annual International Conference of the Society for Free Radical Research invites researchers, doctoral students, academicians, practitioners, and other researchers to submit research related to the area of free radical biology and medicine. The possible tracks for the conference (but not to be limited to) are as following:

- ❖ Free Radicals and Antioxidants in
  - Inflammation and immunity
  - Cancer
  - Cardiovascular disease
  - Lung diseases
  - Neural disorder
  - Diabetes
  - Liver disease
  - Digestive diseases
  - Renal diseases
  - Tissue repair and remodeling
  - Apoptosis and Redox signaling
- ❖ Radiation Biology & Radioprotectors
- ❖ Nutraceuticals
- ❖ Plants and Oxidative Stress
- ❖ Chemistry of Antioxidants
- ❖ Radiosensitizers and cancer radiotherapy
- ❖ Biomarkers of Oxidative Stress
- ❖ Cellular Detoxification Mechanisms
- ❖ Nano-toxicology & Nano-therapeutics
- ❖ Mitochondria and Oxidative Stress
- ❖ Cell Cycle & Differentiation
- ❖ Translational Antioxidant Research

## Important Information

### **About Kalyani**

It is a planned town and an important centre of education, with two universities- Kalyani University and Bidhan Chandra University of Agriculture; and many colleges. The prestigious Indian Institute of Science Education and Research (IISER) and National Institute of Biomedical Genomics (NIBMG) already started its academic activities in Kalyani. College of Medicine & J.N.M.Hospital is also only constituent Medical College of West Bengal University of Health Sciences. It is also the proposed site for AIIMS, West Bengal. Two engineering colleges already exist here. S.K. Acharya Institute of Law has begun functioning in Kalyani.

### **About Venue**

14th Annual meeting of SFRR-India meeting 2016 will be organized by the Department of Biochemistry, “College of Medicine & J.N.M.Hospital, West Bengal University of Health Sciences” at Kalyani.

### **Get in**

There are four railway stations here - Kalyani, Kalyani Silpanchal, Kalyani Ghoshpara and Kalyani Simanta. The institution is situated at a distance of 100 meters from “Kalyani Silpanchal”, Railway station (for “Sealdah-Kalyani Seemanta” bound trains), 1 km from “Kalyani Main” Railway Station (for Sealdah-Santipur/ Krishnanagar/ Gede/ Ranaghat bound trains) and 1 Km from Kalyani Bus Stand.

Bandel Junction Railway Station in Howrah Main line is approximately at a distance of 14 km.

The nearby airport named “Netaji Subhas Chandra Bose International Airport” at Kolkata is 40 km away from the college.

### **Nearby Places to Visit**

Nabadwip, the historic town, is the birthplace and abode of the founder of Vaishnav religion and great social reformer - Shri Chaitanya Mahaprabhu and Iskcon, Mayapur are in this Nadia District.

Bandel Basilica Church, one of the oldest Christian Church of West Bengal; Hooghly Imambara, an architectural splendour of the 19th century and Hanseswari temple, a Hindu Temple of goddess Kali are worth to visit.

### **Weather**

During 1st half of January, weather remains cool (8-18°C). Woolen clothes are necessary.
