Application for Young Investigators Award (YIA)

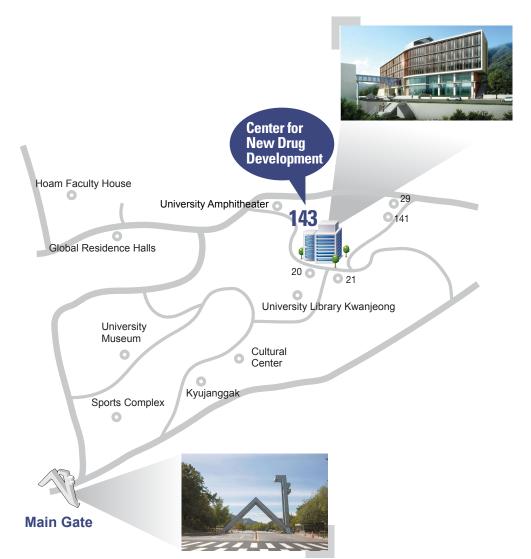

Young Investigators Award of SFRR Asia is given at the occasion of every SFRR Asia/SFRR International Biennial Meeting. The candidates include students, postdoctoral fellows, or medical trainees and must be the first author of the abstract. To apply, send the abstract submitted to the 10th SFRR Asia and CV/Biography (maximum 2 pages, including the date of birth and gender) to SFRR-Asia Secretariat (sfrrasia@koto.kpu-m.ac.jp) by August 31. The judges from the SFRR Asia Executive Committee will review the submitted abstracts and CV/biography and will also evaluate the candidates' presentation on-site. The results will be announced at the occasion of the Award Ceremony.

Outstanding Poster Presentation Awards

The organizing committee of the 10th SFRR Asia will provides the awards for the selected outstanding poster presentations. The candidates must be the first author. There is no special application form for the poster awards.

The 10th Biennial Meeting of Society for Free Radical Research-Asia

SFRR-ASIa 2022

New Paradigm for Research on Oxidative Stress & Inflammation

November 4 ~ 6, 2022Seoul National University, South Korea

Organizer: Society for Free Radical Research-Korea (SFRR-Korea)

Invitation

On behalf of the organizing committee,

I am pleased to welcome you to the 10th Biennial Meeting of the Society for Free Radical Research-Asia (SFRR-Asia) that will be held in Seoul, South Korea on November 4 to 6, 2022.

In celebrating the 10th anniversary of the SFRR-Asia biennial meeting, this year's conference will bring together old and new members of diverse disciplines to exchange ideas, stimulate collaboration, and reset or launch outstanding scientific projects in exploring how distinct sets of free radicals and related molecules are involved in the pathogenesis of diverse human disorders at cellular and molecular levels.

The 3-day conference in the hybrid form will highlight the latest scientific advancement in the areas of redox biology and chemistry. I anticipate that the 10th anniversary biennial meeting will be a truly unforgettable academic festival in the history of our society. I look forward to welcoming you in Seoul in November.

Young-Joon Surh, PhD

President, SFRR-Korea President-Elect, SFRR-Asia

Topics for the Scientific Program (tentative)

- Oxidative Stress in Aging and Diseases
- Mechanisms of Cellular Redox Maintenance
- Host Defense Against Oxidative Stress and Inflammation
- ROS in Inflammation and Immunity
- ROS and Cell Death (Apoptosis, Autophagy/Mitophagy, Ferroptosis, Necroptosis, etc.)
- Redox Signaling in Pathophysiology
- Roles of Free Radicals in Obesity, Exercise, and Metabolic Reprogramming
- Herbal Medicine for Disease Prevention and Treatment
- Diet, Caloric Restriction, and Redox Regulation
- Nitric Oxide, Carbon Monoxide, and Sulfur Gas Biology
- Dietary Supplements with Antioxidant and Anti-inflammatory Activities
- Free Radicals and COVID-19
- Miscellaneous
