Venue

Seoul National University (Cultural Center), South Korea

From the Airport

Limousine Bus

Limousine bus is a convenient and inexpensive way to get to SNU Gwanak Campus from Incheon International Airport. Take airport limousine bus number 6017. The bus 6017 comes directly from Incheon to SNU rear gate (Hoam Faculty House) within 70 minutes. Service is available everyday from early morning to night time at Incheon International Airport with no charge for the baggage.

Taxi Service

The fare for taxi service between Incheon International Airport and SNU Gwanak Campus is around 60,000 won depending on the traffic situation. By Deluxe Taxi(Mobeom Taxi), which offers kinder service, the approximate fare is 80,000 won.

Subway

Subway Line No. 2 (Green Line), Seoul National University Entrance Station (Exit No. 3)

After exiting exit no.3, walk towards the Gwanak-gu Office. There you will find the school shuttle bus and also a regular bus that comes to SNU. The campus shuttles are free of charge. The interval of the buses is usually every 5 to 20 minutes. The bus number 5513 circulates the campus counter-clockwise, from the main entrance towards the Administration Building.

Invitation

Dear Friends and Colleagues:

On behalf of the organizing committee, it is our great pleasure to invite you to participate in the **10th International Conference on Heme Oxygenase (the 10th HMOX)** that will be held in Seoul, South Korea on **October 31 to November 3, 2018**.

Heme oxygenase plays a key role in a cellular homeostasis, and its aberrant expression or activity is implicated in pathophysiology of a wide spectrum of metabolic disorders. Recently, there has been increasing attention to heme oxygenase as a therapeutic target of many human diseases. In this context, the 10th HMOX will bring together researchers of diverse disciplines to exchange ideas, stimulate collaboration, and launch outstanding scientific programs in exploring how distinct sets of endogenous and xenobiotic molecules modulate the functions of HMOX at cellular and molecular levels.

This four day conference will also provide an excellent platform for our next generation investigators, including graduate students, postdoctoral fellows, and medical trainees, to learn the latest scientific advancement ranging from basic to population-based and clinical studies on HMOX and related molecules. There will be ample opportunities for their participation in short oral and poster presentation during the conference.

We would like you to share this information with your colleagues and to encourage their participation. For further information, please visit the HMOX website (www.hemoxygenase2018.co.kr). We look forward to welcoming you to the 10th HMOX in Seoul.

With best wishes for an outstanding conference.

Sincerely,

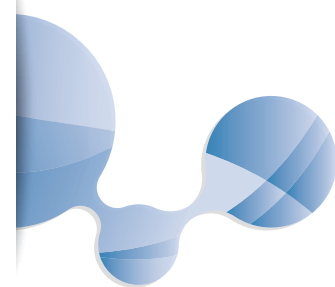

Hun Taeg Chung, MD, PhD
