## ORGANISERS

Prof. Asif Ahmed (University of Edinburgh)  
Prof. Rex Tyrrell (University of Bath)  
Dr. Roberta Foresti (INSERM)

## OVERVIEW

Heme oxygenases and related enzymes in Molecular and Translational Medicine

## POTENTIAL TOPICS

- Molecular Regulation of HO-1
- HO-2 Biology
- Gasotransmitters (NO, H<sub>2</sub>S and CO)
- Iron and Ferritin
- Bile pigments and BVR
- Regulation by Natural Substances
- miRNAs and HO-1/HO-2 Function
- Regenerative Medicine
- Inflammation and Immunity
- Metabolic Disorders
- Cardiovascular Disease
- Cancer
- Central Nervous System
- Disorders of Pregnancy

**INAUGURAL SPEAKER:** Professor Sir John Savill

## KEY DATES

Online registration/Abstract submission opens 29th July 2011  
**Abstract / Early bird registration deadline 31st October 2011**
